FOR IMMEDIATE RELEASE

National Ergonomics Conference & ErgoExpo Presents Strategies, Tools and Awards

Las Vegas – Ergonomics and safety leaders gathered in Las Vegas for the [National Ergonomics Conference & ErgoExpo](#), recently held at Caesars Palace. Attendees gathered to discover the latest tools and resources in the ergonomics industry, plus explore avenues to grow productivity and success, while improving employee health and safety.

The **National Ergonomics Conference & ErgoExpo**, which featured keynotes by former Director of NASA Life Sciences and Author Joan Vernikos, PhD; Chris Dockery of BMW Manufacturing Co.; and Ian Chong of Extreme Ergonomics, Inc., focused on equipping attendees with best practices and proven strategies to help build or improve their ergonomics, safety and wellness initiatives. Through 60 sessions and workshops, **ErgoExpo** attendees learned new approaches and received a more complete “how-to” plan to implement more productivity and cost-saving measures in their workplaces.

The educational sessions, selected by Professor Alan Hedge, PhD, CPE, provided an opportunity for professionals to also earn valuable CEUs, COCs and CM points.

An annual favorite is the *ErgoExpo Attendees' Choice Awards*, where attendees voted for the new product they believe offers the best opportunity to increase productivity and profitability, while improving workplace health and safety.

“The Attendees' Choice Awards gives our attendees a voice on the newest innovative products they feel most passionate about within the ergonomics industry. The winners should be proud of their forward-thinking accomplishments,” said Ed Chase, Vice President of Conferences at LRP Publications.

The top four vote recipients out of 29 new product entries were announced and received honors at ErgoExpo.

2015 Winners:

- Cardinus with MOVE
- Ergotron/Anthro with their product WorkFit-S Dual Monitor Sit-Stand Workstation
- Ergo Desktop with the Kangaroo Tri-Elite
- Kinetic with their Kinetic Wearable
